Martijn van der Eijk

Full Stack Developer · apps & websites

ABOUT

Based in northern Tuscany since 2021. I build apps and websites end-to-end — native mobile, React/Next.js, and cloud backends — with a strong eye for polish and usable detail.

EXPERIENCE

Freelance Full Stack Developer

2017 – Present

- Sonid — music education platform (Swift, Kotlin, Next.js, Firebase, Postgres)
- Toka & Capo — native practice apps (Swift, Kotlin)
- Sonid Classroom — school management (Next.js, Firebase, Postgres)
- Directus Mobile — React Native / Expo
- Kurbo.dev & client sites — Next.js, WordPress

Medior Full Stack Developer — EcBase

Remote · 2021 – 2026

- WMS product features — TanStack, Vite, Chart.js
- Starter templates & sites — Next.js, Tailwind, Radix
- Transport app — Expo, Tamagui, Redux
- Shared UI library — Rollup, Storybook
